

PROFESSIONAL PROFILE

David J. De Vita PRESIDENT

David J. De Vita, president and founder of the Greenville (SC)-based firm **Carolina Safety Consultants**, has dedicated his professional career to providing leading-edge training and consulting to organizations that seek to protect their workforces and environments by complying with all regulatory standards. David's professional credentials include a *Bachelor of Science* degree in *Health & Safety Management* from Clemson University (1990), and a well-rounded career in workplace and jobsite safety training, consulting and implementation that spans more than 15 years. He currently serves as an adjunct instructor at Clemson University and develops safety-related curriculum for higher-education institutions and businesses.

Carolina Safety Consultants (CSC) provides environmental, health and safety consulting services to small-to-mid-sized companies throughout the Carolinas. In addition to serving the general business sector, CSC has specialized expertise in the construction, light manufacturing and healthcare industries. David's personal knowledge and experience provides insight into applicable regulatory standards and interpretations, and assists management in providing a safe workplace — thereby positioning them for a competitive advantage in their respective industries.

Carolina Safety Consultants works closely with regional and national safety-related organizations, including the Upstate Safety Alliance (South Carolina) and the National Safety Council.

Prior to establishing Carolina Safety Consultants in 2004, David held strategic roles with two of the Southeast's most reputable insurance companies as well as the Carolinas Associated General Contractors (CAGC). He has worked extensively with many of the region's leading general and specialty contractors in addition to healthcare, manufacturing and health/spa club organizations.
